**PRAYING DIFFERENTLY**

## COP30 Prayer

Lord, as COP30 has just ended in Belém, inspire in everyone the desire to make the most of the commitments made, with a sincere concern for the common good.

Support us so that we may have the strength to persevere in concrete actions to better care for the creation You have entrusted to us.

May this climate COP be a spur for our leaders and for each one of us, encouraging us to work with You to build a world that is more just and respectful of each of Your creatures
